The graph above is to be used only as a point of reference. It is based on a rider who is approximately 170 lbs. (75 kg). Actual use may vary based on your body weight, ability level, water conditions, board size and riding style. Slingshot encourages you to refer to the User Guide for complete safety recommendations.

# A NEW POINT IN HISTORY.

First comes in many forms. The Slingshot **RPM** is the original "Open C" kite that started it all. It evolved to become the kite that took Youri Zoon to a world title. It has become a riders favorite throughout the world in just a few short years.

Building on it's dramatic success of the Open-C canopy and Slingshot's patented Split Strut technology, the **RPM** pushes kite design to a whole new level. Inspired by Youri's world dominating performance on the tour, we modified the wing tip attachment points to optimize kite performance and deliver complete tuning customization. These additional features and the new 7m allows complete versatility in all conditions and all riding styles.

The 2012 **RPM** sets the standards of durability and stability while maintaining it's legendary flying characteristics and aggressive look.

## RIDER PROFILE

INTERMEDIATE TO WORLD CHAMPION

- + Riders looking for a kite which crosses over from freestyle, to wakestyle, surf or snow with ease.
- + Rider who demands performance within multiple riding styles and conditions.

### PACKAGE INCLUDES

- + **RPM** Kite
- + Compstick Control Bar
- + Kite Backpack

## CROSSOVER COLLECTION

### + OPEN-C DESIGN PLATFORM

First to blend core C kite performance like power, stability, edging, control and direct connect with the advantages of the latest advancements in 4-line technology. Which includes depower, range, safety, simple relaunch and hang time.

### + SPLIT STRUT INTEGRATED 3 STRUT DESIGN

Split Strut intergrates the strut and canopy into one ridged wing creating a lighter, stable and more durable kite.

### + NEW SIZE (7M), QUIVER BUILDER!

In addition to the standard sizing, we have added the Secret Weapon 7m of World Champion Youri Zoon.

### + MODIFIED WING TIP ATTACHMENT POINTS

Fine tuned to optimize power, feel and turning characteristics similar to a C-kite. Designed to work directly with our Full Suspension Bridle, CSS and Compstick control bar.

### + PROGRESSIVE POWER STEERING

Each kite comes with custom attachment points that enable the rider to tune bar pressure based on personal riding preference. Including the World Championship setting.

### + LOW PROFILE WING TIPS

Proven to increase turning speed, while reducing drag and creating more efficiency.

### + SLINGSHOT ONE -PUMP

Patented by Slingshot, the most convenient and proven industry standard single point inflation system.

### + DIMENSION-POLYANT DACRON LEADING EDGE AND STRUT MATERIAL

DP 175 is the undisputed leader in Dacron quality. Proven by our top pro's in the most demanding conditions year after year.

### + TRI TECH PROTECTION

Ballistic Kevlar , Mark Cloth, and Neoprene. Individual scuff guards, strategically placed in the most vulnerable areas of the kite to optimize durability.

### + SLINGSHOT LEGENDARY CONSTRUCTION

Long lasting durability and performance by using only the latest new high tech materials in our LE, canopy,bladders and finish trim materials

### + LIFETIME RIDER HOTLINE SUPPORT

Communicate directly with our friendly in house professional customer service department.
